

OPEN FACULTY POSITION

The Department of Biomedical Materials Science at the University of Mississippi Medical Center is seeking to add a full time (12 month) tenure-track faculty position at the assistant or associate professor level. The position will remain open until filled. Candidates with areas of research in polymers, metals, ceramic, or other areas as they relate to implant applications are encouraged to apply.

Qualified candidates must hold a Ph.D. degree or equivalent in bioengineering, biomaterials, polymer science, materials science, ceramics engineering, metallurgy, or a related field with special emphasis in biomaterials. Salary will be commiserate with academic level and experience.

The successful candidate will be expected to interact effectively in the multidisciplinary environment within the Medical Center. Candidates must possess a record of research accomplishments and publications in their area of research, demonstrate ability to mentor graduate students, teach, and develop an innovative educational and research program with significant extramurally funded program of sponsored research. Applicants should be US Citizens or have a visa allowing permanent employment in the US.

Candidates should send a letter of application including statement of research interests, outline of direction of future research, curriculum vitae, copies of two publications, and the names and addresses/e-mail/phone numbers of three references to:
